EXPERIENCE

MECHANICAL DESIGNER

2019 - present

FREELANCER

As a seasoned SolidWorks Mechanical Designer Freelancer, I bring a wealth of expertise in translating concepts into tangible, high-precision designs. With a proven track record of successful freelance projects. I utilize engineering principles to find solutions through fluid flow analysis and Computational Fluid Dynamics

GRAPHIC & WEB DESIGNER

2017 - present

FREELANCE COMPANIES

As a Graphic Designer and Companies System Developer in several Middle East companies (Naq9atna in Abu Dhabi, RQM in UAE, Emirates numbers in UAE, ...), I've had the unique opportunity to blend creativity with cultural diversity, contributing to the visual landscapes of dynamic organizations across the region.

DESIGNER & DEVELOPER

2023 - present

FOUNDER OF AL-RIYANE DIGITAL

It is a newly established company aimed at providing comprehensive services in various fields, primarily focusing on Design and Web Development services, including:

including brand design, advertising, and digital presence. The company also offers mechanical design services, allowing clients to develop and enhance engineering products.
